Any media that is highlighted in Yellow can be found compiled in the "**Electronic Stories**" database that is listed and downloadable on [dinojim.com/StarWars.htm](http://dinojim.com/StarWars.htm). The database lists all available (or once available) Hyperspace stories, comics, and podcasts, as well as other online resources like Wizards.com and Lego.com.

### - Time -

All times in **Black and Bold** indicate time that is centered around the Battle of Yavin (Star Wars Episode IV - A New Hope)

All times in the format **14:05:12** indicates in universe time. This is YY:MM:DD. It is based on a 10 month calendar with 35 days and 3 special weeks and 3 holidays totaling 368 days a year.

	Hash mark symbol or gray box indicates stories that take place concurrently
--	-----------------------------------------------------------------------------

All times during The Clone Wars are converted into **Days After the Battle of Geonosis (ABG)**.

	<b>Infinites</b> - These are the stories that I have placed within the timeline (and also separate at the end) but clearly do not follow official canon. I placed them within the timeline to make them easier to understand. (i.e. Lego Star Wars movies and Tag & Bink comics).
